

TV Antenna

1. Purpose

The purpose of this policy is to establish the responsibilities of the Housing Trust and tenants' in relation to the installation and maintenance of TV Antennas.

2. Policy

The Housing Trust is responsible for the provision of a TV Antenna and antenna point. This is to ensure each household has access to free to air television.

3. Responsibility

At the commencement of tenancy, at least one working internal TV antenna socket and TV antenna is checked/provided. The Housing Trust will undertake maintenance, repair and replacement of any defective parts to ensure it is working.

Tenants are not to touch or adjust the antenna in anyway. If there is a problem with TV channels the tenant should ensure their television is tuned correctly and set up correctly before contacting the Housing Trust. If the Housing Trust organises repair and it is found it is due to the television being set up incorrectly or faulty a charge may be applied.

If a tenant would like additional sockets or other devices such as FOXTEL, requests in writing must be made to the Housing Trust before installation. If approval is granted the installation will be at the tenants' expense.
